

We are pleased to announce the newest addition to our therapy groups...

ASD Young Adult Transitions

Come learn and interact with college-age peers in this group for 18-25 year olds on the Autism Spectrum. The group will provide opportunities to socialize and work on social skills. Important topics discussed will include:

- ❖ Social Skills & Emotion Regulation
- ❖ Relationships with Friends, Family, Roommates, & Romantic Partners
- ❖ Skills for Managing Demands of School, Employment, & Finances

The group dates and times will be determined based on participant availability. Participants must have an intake session and are expected to attend every session. Insurance accepted.

For information or to register, contact **The Autism Spectrum Clinic @**
